THE PEERLESS[®] KITCHEN.

———— 2023 COLLECTIONS

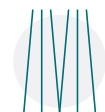

When you consider the effort, hours, and budgets that go into them, kitchens are the most design-intensive spaces in any home. With our style and functionality options on your side, you're sure to get it right.

POWERinse™ TECHNOLOGY

— DESIGN IN ACTION

We designed POWERinse Technology thoughtfully. Intentionally. More than a typical spray mode, POWERinse utilizes extremely narrow ports to create back pressure. That back pressure, in turn, results in a blast of water that easily powers away food residue.

You'll find POWERinse Technology on several of our kitchen faucet models as a third spray mode (in addition to full flow and traditional spray).

Look for the POWERinse Technology icon
in the product details.

TWIST AERATOR

— DESIGN IN ACTION

When money is tight, our Twist Aerator is a great alternative to a traditional pull-down sprayer. A simple twist of the aerator unleashes a blast of water to help clean dirty dishes. And because the aerator swivels, it's perfect for cleaning the entire sink. You'll find Twist Aerators on several of our budget-minded kitchen faucet models.

Look for the Twist Aerator icon
in the product details.
