THE 48" SOFIA RANGE

Thoughtfully designed surface cooking with six burner positions, each with a 5-in-1 Crescendo burner beneath continuous cast iron grates and a Trilaminare stainless steel griddle, providing unparalleled power and control to melt, simmer, sauté and sear as you desire. Below the cooking surface, two self cleaning convection ovens with intuitive multiple baking and broiling functions and the convenience of telescoping racks encourages you to cook the way you want.

EXPLORE OUR BUILT-IN REFRIGERATOR

5 *in* 1

CRESCENDO BURNER

Because precision is important for powerful high and gentle low flames, our sealed burners offer five combinations of flame configurations for near infinite control. Durable brass burner rings provide exceptional heat distribution to the base of the cooking vessel at its maximum output of 20,000 BTU and is also capable of the gentlest simmer aided by its oversized burner cap.

FORTE

1

At the peak of its 20,000 BTU capability, meat is seared to produce a crust worthy of your favorite chef. Large pots quickly recover to a rigorous boil, and no culinary conquest seems unattainable. All burner rings engage to produce the most powerful flame for cooking.

MEZZOFORTE

2

Perfect al dente pasta is a snap. Progressive control of the burner ensures maximum heat distribution without excessive flame for an even and moderate boil.

MEZZO

3

Creamy risotto and smooth custards come to life as the burner rings combine to provide enough heat to encourage the cooking but discourage scorching.

PIANOFORTE

4

Simmer, poach, or braise your way to a tender sauce, soup or stew. Flame curls around the diffuser cap to barely brush the base of the cooking vessel with perfect control for extended periods of low heat cooking.

PIANO

5

Melt butter, temper chocolate, or gently coax the flavor from savory vegetables, this lowest setting is achieved by the flame from the simmer burner rolling gently under the diffuser cap to radiate whisper soft heat.

DISTINTO COLLECTION BUILT-IN PRODUCTS

The Distinto Collection ovens offer performance you expect from professional products but with a sleek European design that will fit flush into your kitchen space. With three different series to choose from, you have a variety of ovens with different features, sizes and colors that will work within your budget.

Creactive Control System

Our Creactive Control System featured on the 700 Series Built-In Wall Ovens, combines cutting edge technology with simplicity.

The touch screen simplifies all procedures and improves performance by reducing energy consumption while intensifying cooking modes. The automatic function system has safety features to warn against and prevent possible damages.

TOUCH CONTROL PANEL

Everything is under your control with just one touch on the Creative display.

INTUITIVE

It only takes a moment to easily find the desired function.

MULTITASKING

All functions help to get the best results while preparing your recipes.

PIZZA MODE 590 °F

Two pizzas can be cooked in only two and a half minutes at the same time with a maximum temperature of 590 °F.

CUSTOMIZABLE RECIPES

Cooking times and modes have been preprogrammed, but you can modify and customize your recipes to suit every palate and need.

SELF-CLEANING

The pyrolytic self-clean function, selected directly from display, consists of heating the inside of the oven to very high temperatures in order to burn off any excess grease and food residue.
