Welcome Home
Ancient Pleasure.

The Sauna has been a meeting place, a private retreat, a welcome respite from harsh elements, and the rigors of hard work and daily life.

The Sauna is an ancient practice, a space thoughtfully created for the ritual of relaxation, rejuvenation, and the restoration of vitality and vigor.

Dry, inviting heat elevates the body's core temperature, relaxes tired and strained muscles, reduces aches and pains, all the while purifying the body and mind.
